

Remarks

In response to the restriction requirement, Applicants elect to prosecute the claims of Group II drawn to the isolated Zneu1 polypeptides. Applicants have canceled claims 1-15 and have inserted new claim 16 directed to an isolated full-length or mature human Zneu1 polypeptide. Even though Applicants have canceled claims 1-15, they do not abandon the subject matter of said claims, and reserve the right to prosecute the subject matter of said claims in future continuation or divisional applications.

Applicants respectfully request that said claim be allowed.

Respectfully submitted,
